Let's talk about lead time! This is the amount of time I need to create, cure and label your products. Lead times vary greatly on products. For most products it's as little as two weeks. For cold process soaps it's as much as 6 weeks. You can place an order and have parts of it shipped to you as they are completed. You will be responsible for additional shipping charges. It would be best to be thinking a season/holiday ahead. We should be planning Christmas in September and by the holidays you'll want to be thinking about Valentine's Day.

I do not have a minimum for wholesale beyond requiring you purchase full cases. You can purchase 1 or a hundred cases. It's up to you.

Wholesale items are not returnable unless due to breakage. This is extremely rare. I will take great care when I pack your orders.

When you reach out to place your order I'll provide an invoice that will include your cost, lead time and shipping quote. You'll receive thorough product information and I'm readily available to answer any questions you have.
